

Dear Parents and Carers,

Year 3/4's Creative Curriculum topic for this half term is "Inventors and Inventions". We will be studying both inventions from long ago and modern inventions and learning why and how inventions are made.

Instead of going on a trip for this topic, we have arranged an external company to come into school for a full day for year 3/4 pupils on Monday 9<sup>th</sup> December 2019.

"AS Creatives" specialise in delivering creative workshops for schools across the UK. They will be coming in to deliver their workshop called "Expect the Unexpected!" which focuses on inventions that happened by accident! This is the first time they have been into our school and we are sure the children will find the workshop interesting and educational but fun and exciting too!

For this workshop to run we are asking for a contribution of £5 per child which can be paid via Parent Pay. School has subsidised this cost to reduce the cost to parents.

Please see below for more information regarding this exciting day!

Thank you,

Year 3/4 Teachers

*Expect the Unexpected!*

*How can Science Investigation save lives? Learning from the past!*

*Which great Science Investigators of the past capitalised on "happy accidents" to*

*create amazing science? You'd be surprised how many there are, resulting in*

*inventions that have fed the world, made life easier – and saved millions of lives!*

*This busy and engaging workshop introduces children to some of these, from*

*Post-its to penicillin to pacemakers, then supports them as they make connections to*

*imagine and market some amazing new inventions of their own.*
