

Steeton Primary School

KS1

Autumn 1 Newsletter 2022

Topic	Magic Monday
<p>Our Topic for this half term is “Incredible Inven-tors.” Children will learn about different forms of transport, who invented them and how they have changed our lives. We will learn all about George Stephenson, Karl Benz, The Wright Brothers and Amelia Earhart. The children will be using maps and atlases to look at some of the journeys under-taken. They will compare old and new trains, cars and planes and look for similarities and differ-ences. We will finish this off with a trip to the York Railway Muesum (more details to follow in a trip letter later in the half term).</p>	<p>Children will be learning about pattern and then will make their own patterns. They will practise drawing wheels and cogs and will then make their own circular printing shapes out of polystyrene and use these to print their own designs. The chil-dren will look at the work of Emma Whitelaw for inspiration for their artwork. They will make mono printed backgrounds to print onto.</p> <div data-bbox="810 891 954 1032"></div> <div data-bbox="1038 898 1195 1032"></div> <div data-bbox="1281 891 1437 1032"></div>
English / Reading	Science
<p>Maple and Willow class will be working on their narrative language and vocabulary skills. They will be thinking about how they can select words to describe emotions, places and actions. The chil-dren will be reading the story of Hansel and Gretel and then writing detailed descriptions using just one image from the book “Into the Forest” by An-thony Browne</p> <p>Oak class will be carrying on with Drawing Club, looking at characters and settings and coming up with their own imaginative writing.</p> <p>All children will be reading the new Reading for Pleasure scheme in school and will start bringing home reading books linked to their phonic learn-ing soon (more details to follow).</p>	<p>This coming week children will be having an enquiry week in science. They will be observing changes over time, seeking patterns, identifying and classify-ing, researching and undertaking fair tests. This will all be done with activities such as rolling cars down ramps, observing how oil reacts with water, observ-ing how shaving foam changes over time etc.</p> <div data-bbox="981 1480 1211 1648"></div>
Pupil Offer / Dates for Your Diary	Other Information
